INTRODUCTION

Founded in 1979, the Library of The Institute of Ismaili Studies contains collections of manuscripts, printed and audiovisual materials in Islamic studies, including outstanding and often unique resources for the scholarly study of the history, thought and traditions of the Ismailis.

The collections include some 1,500 rare manuscripts in Arabic, Persian, Gujarati and the Khojki script; four catalogues describing the Arabic manuscripts in the Institute’s Library have been published to date. Besides over 15,000 items comprising reference works, books, journals, periodical articles and theses on various aspects of Islamic history, theology, philosophy, law, art and literature, there is a specialised holding of nearly 2,000 printed items on Ismaili studies. There is also a significant collection of audio-visual materials, especially of Islamic music from east to west, films in video and DVD formats, slides, and a small but growing collection of recorded recitations of the Holy Qur’an. Certain reference works, such as The Encyclopaedia of Islam, are now available on-line in the Library and further titles in digital form are scheduled. The Library’s printed and audio-visual materials have been classified using a modified version of the Library of Congress Cataloguing Scheme. The Library provides its services to researchers and students of IIS, as well as to qualified scholars from outside, most notably by provision of access to the collections through an on-line catalogue, reference assistance and inter-library loan.

The present brochure offers an overview of the Library’s services, regulations, and policies. Further information on the Library’s collections and activities is available on the Library page of the Institute’s web-site, www.iis.ac.uk.

We welcome you to the Library of The Institute of Ismaili Studies. We are here to serve the scholarly and teaching needs of the IIS, and we look forward to providing any assistance you may require.

Professor Eric Ormsby  
Chief Librarian
